Designed for Comfort, Made for Summer Living

We believe staying cool should feel natural,
not heavy or artificial.

This cooling scarf is designed to blend into your daily life —
soft on the skin, beautiful to look at, and effortless to use.

Not just a product,
but a gentle way to enjoy summer.

1 Why People Choose This Scarf

- Soft and lightweight on sensitive skin
- Comfortable cooling without stiffness
- Easy to wear, easy to carry
- Beautiful enough to be gifted

2 Made for Everyday Moments

- Outdoor walks and travel
- Daily errands and commuting
- Gardening and light activities
- Thoughtful summer gifts

Why This Product

❶ Inspired by Nature

· Floral patterns inspired by nature bring calm and freshness to summer days.
· Designed to feel more like a fashion accessory than a functional tool.
· Cooling, with a sense of style.

❷ Soft Touch, Comfortable Cooling.

· Carefully selected fabric, gentle on skin even with long wear.
· Lightweight, breathable, and comfortable for all-day use.
· No irritation. No heaviness.

❸ Designed for Gifting.

· Packaging is available and provided for retail and gifting.
· Final packaging design may vary depending on order requirements, but it is designed with a clean and elegant presentation in mind.
· Suitable for seasonal collections and summer promotions.

PACKAGING OPTIONS

Packaging Options

Choose from three packaging options designed for everyday retail, wholesale distribution, and premium gifting.

1 Basic OPP Packaging

A clear OPP sleeve for simple, neat packaging. Practical for everyday retail and wholesale distribution.

2 Premium 1 — Korean Heritage Pouch

A premium organza pouch made in Korea, finished with a traditional Korean chrysanthemum knot. Perfect for special events, elegant gifting, and a refined premium presentation.

3 Premium 2 — Signature Paper Tube

Our signature round paper tube offers a refined and sophisticated presentation, ideal for premium retail and gifting.

WOLGAN HELSSY

How to Use

1

Fully submerge the scarf in cold water for at least 15 minutes and no more than 50 minutes.

2

Before use, gently press out excess water by hand or blot it lightly with a dry towel.
Do not twist, wring, or squeeze forcefully.

3

For an extra-cooling effect, lightly remove excess water and place the scarf in the refrigerator or freezer for a short time.
If it becomes firm after freezing, check its condition before wearing.

4

After use, let it dry completely. Once dry, soak it in cold water again for repeated use.

Suggested Uses

Perfect for outdoor activities, daily life, walking, exercise, hiking, childcare, and indoor or outdoor work whenever cooling relief is needed in hot weather. Wear it lightly wherever you want cooling comfort — around the neck, wrist, head, or ankle.
